RE: Recommendations for Disinfecting Against Wuhan Novel Corona Virus 2019-nCoV

To Whom It May Concern;

The purpose of this letter is to provide guidance on disinfectants that are expected to be effective against the Wuhan Novel Corona Virus 2019-nCoV in accordance with the EPA Emerging Pathogen Policy. Since this is a newly discovered virus, there are not any disinfectants available that have been tested for efficacy against the virus.

In light of the above information, the Environmental Protection Agency has implemented an Emerging Pathogens Policy to provide guidance on appropriate disinfectants. **Disinfectants that meet certain criteria can be recommended for use to disinfect against the Wuhan Novel Corona Virus 2019-nCoV.**

The following Multi-Clean Disinfectants offered by UniFirst meet the EPA criteria for disinfectants that are considered effective at inactivating 2019-nCoV.

Multi-Clean 256 Century Q 2-Liter and One Shot 256 Century Q (EPA registration #47371-129-5449) has demonstrated effectiveness against viruses similar to the 2019 Novel Coronavirus (2019-nCoV) on hard, non-porous surfaces. Therefore, Multi-Clean 256 Century Q Disinfectant Cleaner can be used to help guard against the 2019 Novel Coronavirus (2019-nCoV) when used in accordance with directions for use against **Adenovirus type 7** on hard, non-porous surfaces. [More information](#)

Multi-Clean 64 Millennium Q Disinfectant Cleaner (EPA registration #1839-95-5449) has demonstrated effectiveness against viruses similar to the 2019 Novel Coronavirus (2019-nCoV) on hard, non-porous surfaces. Therefore, Multi-Clean 64 Millennium Q Disinfectant Cleaner can be used to help guard against the 2019 Novel Coronavirus (2019-nCoV) when used in accordance with directions for use against **Norovirus** on hard, non-porous surfaces. [More Information.](#)

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Tarvin". The signature is fluid and cursive, with a long, sweeping tail on the final letter.
